

Tobacco Awareness for Public Health Professionals

"Tobacco Awareness for Public Health Professionals" provides a foundation for understanding the public health effects and impact of tobacco use and reasons for integrating tobacco use intervention into public health programs.

Announcing 4 new courses on Tobacco & Public Health!

Tobacco use is the single most preventable cause of death and disease in the United States. This new and exciting course series provides a well-rounded introduction to the topic of tobacco dependence, its health implications and existing approaches to address this preventable yet deadly addiction.

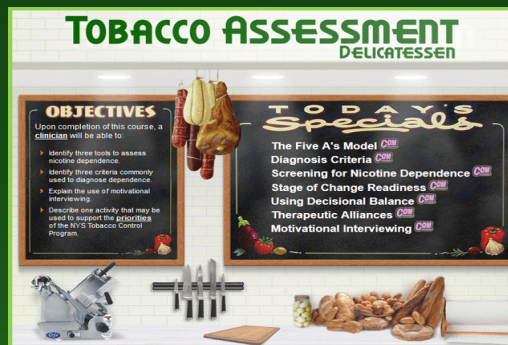

For more information, or to register, please visit our website: <http://www.empirestatephtc.org/learning/pages/catalog/>

If you are employed by NYS or a local health department in NYS, we recommend that you register for this course through the NYLearnsPH.com and search course catalog by keyword search ESPTHC

Tobacco Treatment Toolkit: Clinical Practice Guidelines

"Tobacco Treatment Toolkit: Clinical Practice Guidelines" provides public health professionals the opportunity to learn evidence based PH tobacco treatments. The program provides participants with an evidenced based clinical treatment interventions toolkit to help people who have decided to stop using tobacco.

Tobacco Assessment Toolkit: Clinical Practice Guidelines

The U.S. Public Health Service's 2008 Treating Tobacco Use and Dependence: Clinical Practice Guideline recommends that clinicians and health care systems seize the office visit for universal assessment and intervention. This program provides the participants a practice toolkit which is organized around the 5 A's Model of the clinical practice guidelines.

Tobacco Dependence: Foundations for a Public Health Workforce

"Tobacco Dependence: Foundations for a Public Health Workforce" examines evidence about tobacco use and tobacco dependence. Examining research can help public health professionals create programs and activities that produce specific, measurable outcomes.
