NYMAC is a federally-funded Regional Collaborative dedicated to ensuring that individuals with genetic conditions or at risk for genetic conditions have access to the resources and services they need in the context of a medical home (www.wadsworth.org/newborn/nymac).

NYMAC Conference on Transition for Providers of Medical Care to Adults with Genetic Conditions

Saturday, May 17, 2014
Sheraton Inner Harbor Hotel
300 South Charles Street, Baltimore, MD

To: Physicians in Family Medicine, Med-Peds and Internal Medicine within the NYMAC Region

We are collaborating with the NYMAC Chapters of the American Academy of Family Physicians and the American College of Physicians to invite a very select number of doctors in family medicine, med-peds and internal medicine who have been recognized for their interest in caring for adult patients with genetic conditions from the NYMAC states and District of Columbia to attend this one-day conference. Attendees will also include second-year residents and their faculty advisors in these specialties.

This all-expense-paid event is sponsored by NYMAC. It will include presentations by an expert panel of providers who are dedicated to the successful transition of young adults with genetic disease from pediatric to adult-oriented medical care. The talks will be followed by an open discussion with adults who will share their experiences transitioning from pediatric to adult-oriented care. The conference will conclude with a Q&A session with many of the presenters.

Attached is the agenda. If you are currently serving or interested in serving this population in the NYMAC region and want to attend this important conference, please fill out the form below and send it to Bonnie Fredrick at blf01@health.state.ny.us. The deadline to apply is Friday, ~~April 18, 2014~~ **April 25, 2015**. If you have questions you may call Bonnie at (518) 486-5286. Space and funding are limited. We need to ensure that all our states and the District are represented by physicians, faculty advisors and second-year residents in these specialties, so we will let people know who is accepted to attend by April 21st. Attendees' travel expenses, including transportation to Baltimore and per diem will be reimbursed following the conference. Friday, May 16th hotel accommodations and conference registration will be paid directly by NYMAC. We have made arrangements with the hotel for conference attendees to stay at the hotel at their expense on Saturday night at the government rate of \$147 plus taxes and fees if they

so wish. Along with notification of acceptance,

attendees will receive the NYMAC Travel Guidelines.

NYMAC Conference on Transition for Providers of Medical Care to Adults with Genetic Conditions

Saturday, May 17, 2014
 Sheraton Inner Harbor Hotel
 300 South Charles Street, Baltimore, MD
