CHCANYS Presents: The Use of Patient Centered Technology in Emergency Preparedness

Join us for a Webinar on July 13

Munish Khaneja, MD MPH
Chief Medical Officer, MediModules, Inc.
Assistant Professor, Medicine and Pediatrics, SUNY Downstate Medical Center,
Brooklyn, NY

This session will focus on the application of health information technology to ensure patient safety in emergency situations.

At the end of this session, the participant will:
* Understand the importance of and the barriers to the exchange of patient data electronically
* Have a basic understanding of patient-centered healthcare technology
* View some examples of patient-centered technologies that can be applied in emergency preparedness
