This program is funded in part by NY • NJ Preparedness and Emergency Response Learning Center which is supported by Cooperative Agreement #5U90/TP000404-02 from the Centers for Disease Control and Prevention (CDC). The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services, nor does mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

Objectives *At the end of the conference participants will be able to:*

- State the importance of global immunization policy/procedure/program to local practice.
- Describe representation on the ACIP and how members are identified and selected.
- Describe key components/criteria used in the ACIP deliberation process and decisions.
- Identify at least three impacts on policy and practice (e.g., on the Vaccines for Children Program, the Affordable Care Act, and practice in general).
- State key recommendations for Tdap and Zoster vaccines in adults.
- Identify the current usage, features, and future of the immunization reporting systems.
- Cite two examples of vector-borne diseases (e.g. dengue, Lyme) their prevalence, impact on health, and vaccine issues.
- Identify vaccine status update on vector borne diseases (e.g. Lyme, dengue) and other related vaccines.
- Describe the importance of flu vaccine based on a vivid personal story.
