

**CHCANYS** DEFINING NEW DIRECTIONS  
Community Health Care Association of New York State

# CHCANYS Community Health Corps: Pipeline to Tomorrow's Entry-Level Community Health Workforce

10/27/2014

# CHCANYS Community Health Corps

Health-focused AmeriCorps program that promotes health care for underserved populations while developing tomorrow's health care workforce. It is a workforce development program dedicated to preparing its members for careers in community-based primary health care.

## Providing Opportunity

The mission of CCHC is to provide job opportunities and professional development to economically disadvantaged and unemployed members of the community while improving health care access and enhancing workforce capacity for community health centers.

## What do Health Corps members do?

- Health Education
- Community Outreach
- Care Coach and Care Coordination
- School-Based Health Services
- Medical Interpretation and Translation

## Members serve in a variety of settings:

- Rural
- Urban
- Clinic
- School-Based clinic
- Mobile health van

# Member Training and Professional Development

Regardless of the member's position, there are certain skills that are applicable in every community health care-focused position or setting

## Community Health Job Skills Training

The practical skills and knowledge necessary to perform service activities and build readiness for careers in community health. These trainings focus on developing skills that are applicable in any health care workplace environment.

# Community Health Job Skills

- Motivational Interviewing
- Group Facilitation
- Conflict Resolution
- Customer Service
- Cultural Competency
- Harm Reduction and Reducing Stigma
- Stress Management
- Time Management and Organization
