

**Community Health Care Association
of New York State**

Defining New Directions

Background

- **Community Health Care Association of New York State (CHCANYS)**, a **37 year-old organization**, is New York's Primary Care Association and the statewide association of community health centers. CHCANYS works to ensure that all New Yorkers, and particularly those living in underserved communities, have access to high quality community based health care services.
- **Mission:** CHCANYS' mission is focused on retaining and expanding primary care capacity; investing in primary care Health Information Technology (HIT); implementing primary care home standards; reforming the primary care payment system; and developing the primary care workforce.

CHCANYS' policy priorities are primarily focused around:

- Ensuring health insurance coverage for all New Yorkers;
- Ensuring access to a high quality health care delivery system for all New Yorkers; and
- Ensuring investment in community-based primary care.

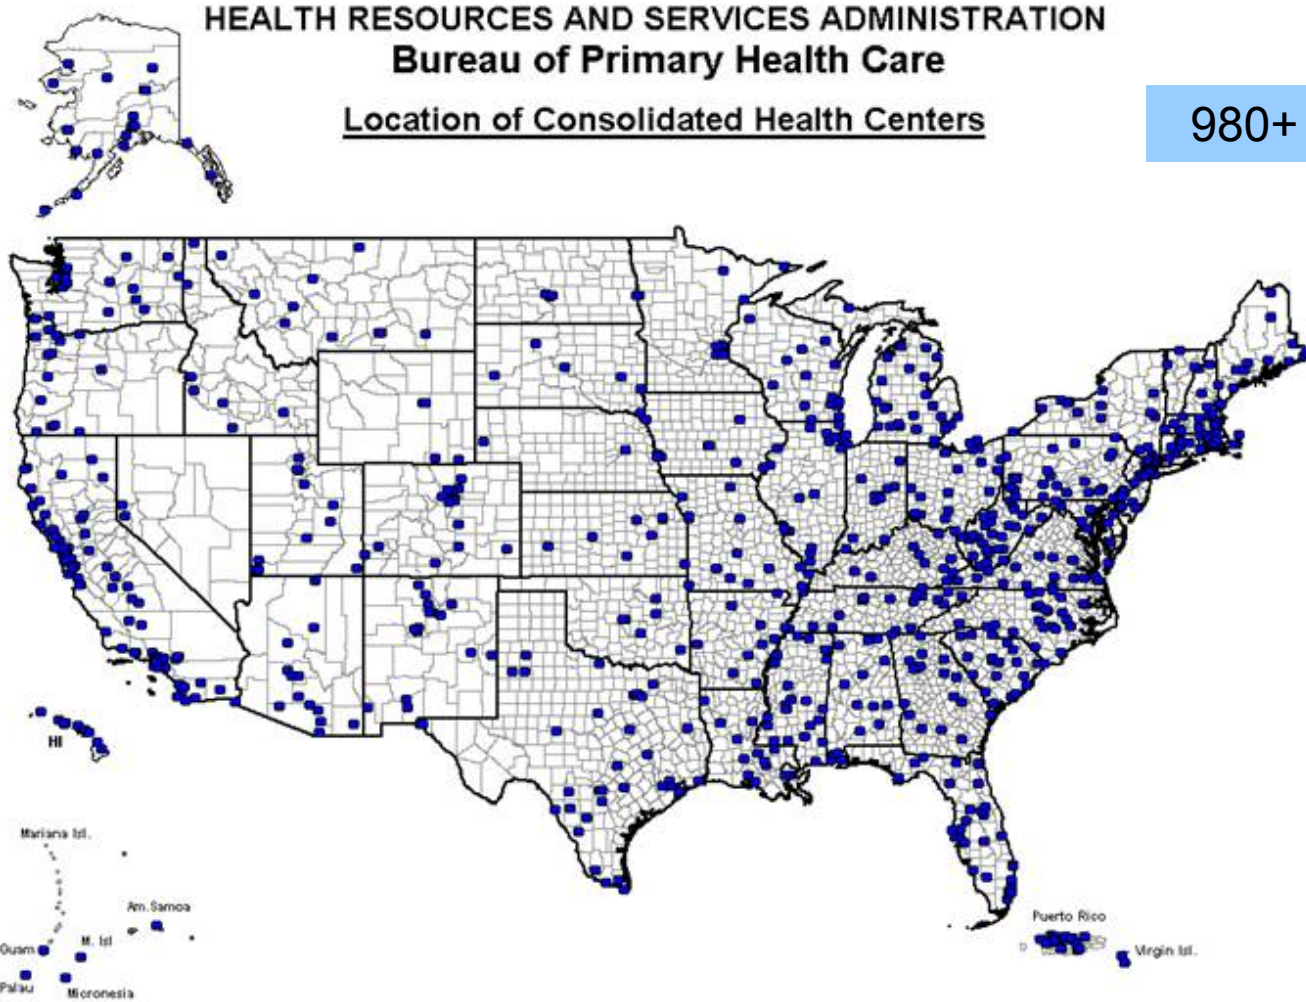

CHCANYS also urges policymakers to invest in reform that strengthens our health care infrastructure by:

- ensuring a strong primary care workforce;
- investing in health information technology for primary care providers;
- capital for primary care in underserved communities;
- integration of behavioral health care with primary care; and
- ensuring access and coverage for high quality oral health care.
